

Lower Fox Discovery Meeting Comments - November 2010

Comment	Marked Map	Submitted by	Community	County	Comment
4	n/a	Cody Wright/Red Cross	DeKalb County	DeKalb	Many emergency services, departments, and agencies would benefit from depth grid analysis and velocity analysis to better serve their communities
7	n/a	Pat Vary/County Board	DeKalb County	DeKalb	The depth grid was very helpful. DeKalb Co. is in the process of stormwater management. We have 2ft contours, a layered GIS on our website-aerial photography-2009-accessible now We have some FEMA data . FEMA needs our 2ft . <u>Phase 1</u> -update stormwater plan-done. <u>Phase 2</u> -2ft contours-done, ID wetlands & floodplains-doing -ID areas for mitigation-watershed approach phase 3-\$ to act-start mitigation.
2	n/a	Deana Cada/Program Manager	DeKalb County	DeKalb	Not mapped . Very interested in the flood grids and water depth layers. (Depth Grid) Percent annual danger of flood grid. The DeKalb Co. comment foundation is committed to provide tools & resources to municipality officials to make good land use decisions. the layers would be a great educational tool.
5	17037C0369E	Rebecca Van Drasek/Assistant Planner	Hinckley	DeKalb	Property owner filled-elevation may be incorrect. Floodplain may not represent current flooding;
6	17037C0368E	Rebecca Van Drasek/Assistant Planner	Hinckley	DeKalb	Rumsnider & Duffy Road Crossroad water over road caused wreck.

16	17037C0350E	Donna Prain/KREP	Waterman	DeKalb	Area has become developed
10	17037C0350E	Donna Prain/KREP	Waterman	DeKalb	Homes receive floodwater from fields/creek
21	17037C0500E	Rebecca Van Drasek/Assistant Planner		DeKalb	Possible LOMC cluster; Zone A ; 100 yr ago, Farmer sold land that flooded & someone built houses; Little Rock Creek
9A	17037C0425E	Dean Johnson		DeKalb	CREP Easements and CRP practices.
9B	17037C0350E, 17037C0475E	Dean Johnson		DeKalb	Subdivision- City of Sandwich near Waterman
9C	17037C0400E	Dean Johnson		DeKalb	water overtops Pritchard Road
9D	n/a	Dean Johnson		DeKalb	water floods Rt 23 at Rail road
9E	17037C0475E	Dean Johnson		DeKalb	Somonak Creek study shows large areas of logging of trees in creek
17B	17037C0275E	Donna Prain/KREP	Maple Park	DeKalb/ Kane	Currently Zone A w/tremendous development. Multi-County- DeKalb/Kane counties Kishwaukee watershed in Union ditch w/ Virgil ditch sub watersheds;East Branch South Branch Kishwaukee River, Union Ditch No 1. (not Fox R. watershed)

141	11_16-17_4_DM	Brian Hermann/St. Charles	St. Charles	Kane	Need update of flood study for Ferson Creek/Otter Creek City Benchmark data & zoning map available at city website www.stcharlesil.gov . Separate comment on same Discovery map different location - New flood study performed in 2009/10. St. Charles is working with FEMA. Another separate comment (same Discovery map) - Prioritize flood study for Norton Creek.
132A	11_16-17_5_DM	Tim DuSell/City of Aurora	Aurora	Kane	Ice Jam occurrence Illinois AU on Fox River
132D	11_16-17_5_DM	Tim DuSell/City of Aurora	Aurora	Kane	Identify Rob Roy Creek
132E	11_16-17_5_DM	Tim DuSell/City of Aurora	Aurora	Kane	Blackberry Creek dam at Fox River in Yorkville
132B	11_16-17_5_DM	Tim DuSell/City of Aurora	Aurora	Kane	Question recent status of Blackberry Creek survey
132C	11_16-17_5_DM	Tim DuSell/City of Aurora	Aurora	Kane	Update study of Waubensee Creek & tributaries
106	0	Greg Chismark/WBK Associates	Batavia	Kane	Downtown Batavia is considering redevelopment- An accurate Fox River study & depth/velocity grids would be powerful tools to communicate to the community.
126	17089C0242H	Greg Chismark/WBK Associates	Campton Hills	Kane	Flood profile development for VOV-numbered "A" Zone - tributaries to Mill Creek; Mill Creek Trib #2 (Zone A transitions to Zone AE
119	17089C0239H	John Nevenhoven/Village of Elburn	Elburn	Kane	Under Development; Elburn Run; Zone AE

124	17089C0305H	John Nevenhoven/Village of Elburn	Elburn	Kane	Area currently being developed
149	17089C0250H	John Nevenhoven/Village of Elburn	Elburn	Kane	Insufficient capacity to carry stormwater from northside of Union Pacific Railroad to Welch Creek. Stormwater pipe is too small (6") to carry enough water during significant rain events. Welch Creek
147	17089C0239H	John Nevenhoven/Village of Elburn	Elburn	Kane	Developer is currently working on a proposal for residential development in this area. Pouley Run and Pouley Run North (tribs to Blackberry Creek)
131B	11_16-17_5_DM	Karen Kosky/Kane County	Kane	Kane	3 buyouts recently completed
131D	11_16-17_5_DM	Karen Kosky/Kane County	Kane	Kane	Ice Jam near Dundee - caused by channel configuration, bridge abutments, IDNR did trial of ice jam booms but have since concluded the trial
131A	11_16-17_5_DM	Karen Kosky/Kane County	Kane	Kane	Additional letters of map change will come through for residences on Indian/Selmarten Creeks
131E	11_16-17_5_DM	Karen Kosky/Kane County	Kane	Kane	Low-head dams removed on Ferson-Otter Creek
131F	11_16-17_5_DM	Karen Kosky/Kane County	Kane	Kane	Some data available through ISWS for Big Rock/Welch Cr. & tribs
131G	11_16-17_5_DM	Karen Kosky/Kane County	Kane	Kane	Brewster Creek dam removal-data available through USGS
131C	11_16-17_5_DM	Karen Kosky/Kane County	Kane	Kane	Proposed annexation of property along Randall Rd-could use updated engineering data; Mill Creek
148	11_16-17_4_DM	John Nevenhoven/Village of Elburn	Kane County	Kane	Kane County is proposing a 2 lane road w/the potential for a 4 lane right of way; Pouley Run and Pouley Run North (tribs to Blackberry Creek)

127A	17093C0051G , 053G	Pete Wallers/EEI	Montgomery	Kane	Area of known flooding-part of the Montgomery overflow of Blackberry creek. See panel Kane panel 401 - flood path shown See panel Kendall - 51 & 53 Flood plain should continue through Fox metro to Fox River 11 16-17 1 DM
107A	17089C0262H	James Benahl/St. Charles	St. Charles	Kane	Needs to be remodeled. Severe flooding in 2007, 2008, 2010
107	17089C0258H	James Benahl/St. Charles	St. Charles	Kane	Norton Creek, near cross section (B-B) Panel 258 tributary creek has severe erosion & needs to be modeled/FIS. This area has many interlocking parts that had severe sediment intake in 07, 08 and 2010 rain events. Norton Creek, unnamed tributary, unmapped SFHA
125	17089C0266H	James Benahl/St. Charles	St. Charles	Kane	Recommend performing flood study to extend the City of St. Charles latest approved flood study (Tyler Rd to Kirk) farther east due to increased volumes. 7th Ave Creek
105B	17089C0266H	James Benahl/St. Charles	St. Charles	Kane	City is currently working with FEMA for remodeling of 7th Avenue Creek Tributary. City performed FIS (flood study) in 09/10 and FEMA has approved it. It is recommended that the tributary stream (7th Avenue Creek Tributary) be extended farther north.
108A	11_16_17_5_DM	Tim Paulson/EEI	Yorkville	Kane	108A-City of Yorkville has modeled Rob Roy Creek & produced floodplain maps.
130E	11_16-17_5_DM	Candice Jacobs/KDSWCD	Kane, DuPage, SWCD	Kane, DuPage	Norton Lake Subdivision

130A	11_16-17_5_DM	Candice Jacobs/KDSWCD	Kane, DuPage, SWCD	Kane, DuPage	Community has open acquisition
130C	11_16-17_5_DM	Candice Jacobs/KDSWCD	Kane, DuPage, SWCD	Kane, DuPage	Steams Rd Bridge mitigation project
130J	11_16-17_5_DM	Candice Jacobs/KDSWCD	Kane, DuPage, SWCD	Kane, DuPage	Blackberry Creek headwaters open space
130L	11_16-17_5_DM	Candice Jacobs/KDSWCD	Kane, DuPage, SWCD	Kane, DuPage	Frequent flooding Rt 64 & 47
130B	11_16-17_5_DM	Candice Jacobs/KDSWCD	Kane, DuPage, SWCD	Kane, DuPage	Compton Hills is now community just annexed
130I	11_16-17_5_DM	Candice Jacobs/KDSWCD	Kane, DuPage, SWCD	Kane, DuPage	Yorkville Dam on the Fox
130K	11_16-17_5_DM	Candice Jacobs/KDSWCD	Kane, DuPage, SWCD	Kane, DuPage	Nelson Lake Extension of F.P. 330 acres
130F	11_16-17_5_DM	Candice Jacobs/KDSWCD	Kane, DuPage, SWCD	Kane, DuPage	Fox Mill/Waso sanitary district
130D	11_16-17_5_DM	Candice Jacobs	Kane, DuPage, SWCD	Kane, DuPage	Large proposed development
130H	11_16-17_5_DM	Candice Jacobs/KDSWCD	Kane, DuPage, SWCD	Kane, DuPage	Proposed development subdivision In Montgomery

130M	11_16-17_5_DM	Candice Jacobs/KDSWCD	Kane, DuPage, SWCD	Kane, DuPage	Proposed development (subdivision)
130G	11_16-17_5_DM	Candice Jacobs/KDSWCD	Kane, DuPage, SWCD	Kane, DuPage	Requested updated engineering (CUIUA replacement on Big Rock Creek)
101	11_16-17_1_DM	Pete Wallers/EEI	Montgomery	Kane, Kendall	No detailed flood study, Qs [discharge] developed using regression Eqs -needs re-study in both Kane & Kendall County. Flood Stage-Gauge Station @ Montgomery would be helpful for establishing a flood warning system. Parkview Estates has "partial" flood protection from 1975 levee system-once overtopped properties flood quickly!
142B	17089C0406H	Jeff Rugg/U of I Unit Educator	Montgomery / Oswego	Kane/ Kendall	Adjacent farm field 1/2 in Kane co. 1/2 in Kendall Co. that has for sale sign for condos. The discovery map shows this area as a lake.
142A	17089C0406H	Jeff Rugg/U of I Unit Educator	Montgomery / Oswego	Kane/ Kendall	A FEMA purchased area of destroyed homes from 1996 flood
143A	17093C0065G	Jim Jensen/Village of Oswego	Oswego	Kendall	Hudson Crossing Park at the corner of Rt 34 (Washington) and Harrison floods every year.
data form	n/a	Bill Small, Oswego To	Montgomery	Kendall	Interested in Boulder Hill Subdivision caused by runoff from the ponds of Mill Race Creek's recent change made in the "Rill" surrounding Mill Race subdivision.
104B	17093C0053G	Jeff Rugg/U of I Unit Educator	Montgomery	Kendall	Check with Fox Metro Sanitation to see if this area floods

112	n/a	Jim Jensen/Village of Oswego	Oswego	Kendall	Long existing creek starts at approx. Monroe Street and runs down to the Fox River. Creek located between Vanburen and Tyler. This creek flooded during 100 year flood and has houses up and down.
121	11_16-17_3_DM	Joe Wywrot/City of Yorkville	Yorkville	Kendall	Proposed removal of Blackberry Creek dam. This is a USACE, Rock Island project.
123	11_16-17_3_DM	Joe Wywrot/City of Yorkville	Yorkville	Kendall	Discovery map shows ice jam location on Blackberry Creek just west. of Rt. 47. We are unaware of this being a problem location.
138	11_16_17_1_DM	Kevin Collman/YBSD	Yorkville	Kendall	Possibility of stage gage installation Yorkville/Bristol water treatment plant but needs cost share from USGS
120B	11_16-17_3_DM	Joe Wywrot/City of Yorkville	Yorkville	Kendall	Rob Roy Creek needs to be shown on FEMA maps! City of Yorkville hired EEI to perform flood study. Study is nearly complete-Community using as best available data.
122	11_16-17_3_DM	Joe Wywrot/City of Yorkville	Yorkville	Kendall	Un-named creek along Pavilion Rd. >1 square mile drainage area - needs study
data form	n/a	Kevin Collman/Yorkville Bristol Sanitary Dist.	Yorkville	Kendall	Some of our building floods at 576.75', everything would be flooded at 582' in plant process. Blackberry Dam is on district property. In all new equipment installations we strive to place them above those 1996 flood levels of appr. 580'; Rox River, Blackberry Creek
111B	11_16-17_2_DM	Nancy Martin/Kendall County	Kendall County	Kendall	Willow Springs/Black Hawk Springs - New Development
139D	17093C0020G	Angela Zubkoe/Kendall County	Kendall County	Kendall	Willow Springs/Black Hawk Springs - Properties are in the floodplain that don't flood. They were not on the map before new maps. Fox River

139C	11_16-17_2_DM	Angela Zubkoe/Kendall County	Kendall County	Kendall	Repetitive loss property flooding; Fox River
139A	11_16-17_2_DM	Angela Zubkoe/Kendall County	Kendall County	Kendall	Farnsworth House is a repetitive loss property; Fox River
144A	17093C0054G	No name	Kendall County	Kendall	Culvert is too small and causes water to come up over the roadway (Wolf Road). Needs engineering data. 11_16-17_2_DM
111A	11_16-17_2_DM	Nancy Martin/Kendall County	Kendall County	Kendall	Heavily Traveled Road
139B	11_16-17_2_DM	Angela Zubkoe/Kendall County	Kendall County	Kendall	Needs updated engineering study; Fox River
128D	17093C0020G	John P. McKinnis/City Planner	Plano	Kendall	Panel 20 of 225 - He did not believe that the homes along Mill Creek Road had any flooding in 1996
128B	17093C0010G	John P. McKinnis/City Planner	Plano	Kendall	Panel 10 of 225. East Branch Little Rock Creek. There is proposed development upstream of section H-H
110C	Email	Joe Wywrot/City of Yorkville	Kendall County	Kendall	Flooding issues occur in the unincorp. Fox Lawn subdivison (near Yorkville) located near an un-named creek. A storm in 2004 flooded this area. The most significant flooding occurs just south of Fox Road (indicated by the arrow on the print). Fox Lawn aerial photo and drainage report were attached. Noted that Fran Klaas, the Kendall Co., highway engineer, may have more information on drainage in this area.

42B	11_9_10_1_DM	Chuck Borchsenius/County Board	(Norway) Sheridan	LaSalle	Stream Bank issues; Fox River
33E	17099C0395F	Matt Stafford/Supervisor of Field Operations	LaSalle County	LaSalle	Ice jams do occur. New bridge Co. Hwy 18 (North 31st) which may reduce ice jam issue. Question if current 100 yr levels accurate; damage outside of mapped floodplain; -did not qualify for severe rep loss 11_9_10_2DM
34	17099C0395F	Matt Stafford/Supervisor of Field Operations	LaSalle County	LaSalle	Ayer's landing/River Road Sulfer Springs and other areas have flooding from ice jams. *) Houses on East side are not in floodplain but consistently flood. "Always happens" -Matt 11_9_10_2DM
36	17099C0405F		LaSalle County	LaSalle	Ice Jam area, backwater created & LOMC cluster, homes nearly taken out, erosion, limited access, emergency services issue
35	17099C0410F	Peggy's Group	LaSalle County	LaSalle	Area of Concern -West of County is in Flood Plain. East is not on the map, but many homes are built in the area experience water issues/events. Ice Jam area, back water created & LOMC cluster, homes nearly taken out, erosion, limited access, emergency services issue: Need Study 11_9_10_2DM
